International study guide:

There is a good resource “Preparing for the International CCA Exam” available for purchase from IPNI. The 2018 edition is available: <https://store.ipni.net/products/preparing-for-the-international-certified-crop-adviser-exam>. This guide is divided into the four categories of the exam: Nutrient Management, Crop Management, Pest Management, Soil/Water Management with subject matter and questions/answers at the end of each chapter. This manual is an excellent study guide for the International Exam.
