## MAIN SESSION

This field day will cover topics related to in-field and edge-of-field conservation practices, such as two-stage ditch construction and use, cover crops, and the use of Phosphorus filters to manage excess soil P. Our keynote speaker will be Kevin King, USDA-ARS Research Lead and Agricultural Engineer, discussing water management and in-field practice research results. Four breakout sessions will allow for smaller group conversation.

Lunch will be provided at this event, so registration is preferred. Register at
