## International study guide:

There is a good resource “Preparing for the International CCA Exam” soon to be available for purchase. FYI, the 2018 edition will be available in late October 2017. To order: <https://store.ipni.net/collections/manuals>. This guide is divided into four main categories; Nutrient Management, Crop Management, Pest Management, Soil/Water Management with subject matter and questions/answers at end of each chapter. This manual is an excellent study guide for the International Exam.
