Date of symptoms first observed: _____ Percentage of field affected:_____

Would you like to receive an update on the species identification? **Yes** ☐ **No** ☐

Please send samples to:

OSU Soybean Pathology & Nematology
110 Kottman Hall
2021 Coffey Road
Columbus, OH 43210

OHIO SOYBEAN COUNCIL

UNITED SOYBEAN BOARD™

Sample submission: Please submit entire soybean plants. SDS and RCR are soilborne diseases, it is extremely important to include the roots. A fresh sample is always best. We suggest packaging the entire plant sample in an airtight zip-top bag prior to mailing, as it helps to retain freshness. After collection, please attempt to reduce the time the sample is exposed to extremely hot temperatures. Please complete this submission form and include alongside the sample. Please avoid getting this form wet.

Thank you for your collaboration
