

Table 1. Relative percentage of values in spring vs. fall sampled soils. Values over 100 show greater values in spring; values less than 100 show greater values in the fall.

Measurement	Clark	Wayne	Wood	Average
pH	104	103	102	103
Organic Matter (OM)	89	104	87	93
Cation Exchange Capacity (CEC)	91	89	86	89
Phosphorus (P)	101	99	90	97
Potassium (K)	95	112	94	101
Calcium (Ca)	98	114	102	105
Magnesium (Mg)	95	106	98	100
