

Ohio Intensive Soybean Management Workshop

Tues, January 31, 2017 • 9:00 AM-4:00 PM • \$70

Muck Crops Research Station
4875 SR 103 S.
Willard, Ohio 44890

The first 20 registered will receive a \$50.00 scholarship towards their registration.

Join OSU Extension as we present a hands-on, intensive soybean management workshop for Ohio Crop Producers that will help you become a more profitable soybean producer. This workshop will feature Dr. Laura Lindsey, Soybean/Wheat Extension Specialist; Dr. Kelley Tilmon Field Crop Extension Entomologist; Dr. Steve Culman, Soil Fertility Extension Specialist, and Dr. Anne Dorrance, Field Crop Extension Pathologist.

In addition to the great presentations throughout the day, participants will receive a soybean management notebook. The notebook will include the following publications:

- Ohio Agronomy Guide
- Corn, Soybean, Wheat, and Alfalfa Field Guide
- Profitable Soybean Disease Management in Ohio
